DIRECTORATE-GENERAL FOR AGRICULTURE AND RURAL DEVELOPMENT

Directorate B. Multilateral relations, quality policy
B.4. Organics

Version 3 December 2015

Guidelines on additional official controls on organic products imported from Ukraine, Azerbaijan, Belarus, Georgia, Kazakhstan, Kyrgyzstan, Moldova, Tajikistan, Uzbekistan and Russian Federation

Applicable from 01/01/2016 until 31/12/2016

This document has been conceived as a working document of the Commission Services. It has been elaborated in co-operation with the Member States. It does not intend to produce legally binding effects and by its nature it does not prejudice any measure taken by the Commission or by a Member State within the implementation prerogatives under Article 32 and 33 of Council Regulation (EC) No 834/2007 and of Commission Regulation (EC) No 1235/2008, nor any case law developed with regard to this provision.

Guidelines on additional official controls on organic products imported from Ukraine, Azerbaijan, Belarus, Georgia, Kazakhstan, Kyrgyzstan, Moldova, Tajikistan, Uzbekistan and Russian Federation

Applicable from 01/01/2016 until 31/12/2016

The Competent Authorities¹ of all Member States undertake to ensure that the control measures described under section (2) and (3) of these guidelines are carried out on all consignments defined in section (1).

The Competent Authorities will only allow these consignments to leave the premises of the first consignees and allow these products to be put on the market as being an organic product when the control measures set out in sections (2) and (3) of these guidelines have been carried out under their responsibility and have been concluded with satisfactory results.

(1) Tracking and identification of all consignments of imported organic food and feed

The Competent Authorities shall track and identify all consignments of organic food and feed with the following CN-codes² originating from the 10 countries referred to in the title of these guidelines:

- a. Chapter 10 – Cereals
- b. Chapter 11 – Products of the milling industry; malt; starches; inulin; wheat gluten
- c. Chapter 12 – Oil seeds and oleaginous fruits; miscellaneous grains, seeds and fruit; industrial or medicinal plants; straw and fodder (including 12.06 - Sunflower seeds)
- d. Chapter 23 – Residues and waste from the food industries, prepared animal fodder (including 23.06 - Oilcake and other solid residues, whether or not ground or in the form of pellets, resulting from the extraction of vegetable fats or oils, other than those of heading 2304 or 2305)

Moreover, as set out in Article 84 of Regulation 889/2008, the importer shall in due time inform the control body or control authority of each consignment to be imported into the European Union.

¹ The authorities designated pursuant to Art. 27(1) of Regulation (EC) No 834/2007

² See <http://eur-lex.europa.eu/legal-content/EN/TXT/?uri=URISERV:111003>

(2) Complete documentation check at point of entry

The complete documentation of these consignments shall be verified systematically:

- a. Certificate of inspection, boxes 1 to 15
- b. Documents of custom declaration
- c. Transport documents
- d. Operators and product traceability: verification of names, addresses and valid certification of all operators in the trade flow

(3) Sampling and analysing for presence of pesticide residues each incoming consignment at point of entry

At least 1 representative sample shall be taken of each of these consignments at the point of entry in the EU. Sampling shall be done by using the methods as described in Commission Regulation (EU) No 691/2013 on the sampling methods to be used for official control of feed.

These samples shall be analysed for the presence of pesticide residues in an accredited laboratory. The analytical methods to be used should cover all the relevant pesticides, as defined by expert knowledge.

The sampling report of each sample must contain the identification of the consignment: lot number and number of the Certificate of Inspection.

When pesticide residues are detected, an investigation shall be started and a notification in the Commission's Organic Farming Information System (OFIS) shall be made.
